

Entities:

- Client, Service Provider, Contract, Obligation, Breach, Notice

Relationships:

- Contract defines Obligations

- Breach occurs when Obligations fail

- Notice is issued after Breach

Process Steps:

1. Contract execution

2. Obligation monitoring

3. Breach detection

4. Issue notice

5. Allow cure period

6. Escalate if unresolved

Decision Points:

- If breach is minor -> allow fix

- If breach is major -> escalate immediately

Rulesand Scenario

Rules:

- Notices must be written
- Cure period is 30 days
- Arbitration is binding

Scenario:

A provider misses a deadline.

Client issues notice.

If not resolved, dispute begins.

Dispute goes to arbitration.

Additional:

- Repeated breaches may terminate contract
- Legal jurisdiction applies
